

LAWN CARE

Fertilisers

Spring & Summer

9+7+7
(9+3.1+5.8)

- Cost-effective application rates.
- Breaks down quickly to give rapid uptake of nutrients, reducing risk of scorch and mower pick-up

Application rate: 35-70g per sq. m
Area treated by a 25kg bag: 355-714sq. m
Suggested use period

Jan Feb **Mar** Apr May Jun Jul Aug Sep Oct Nov Dec

Longevity 6 weeks

Autumn

4+12+12
(4+5.2+10)

- High phosphate and potash with cost-effective application rates
- Ensures healthy root growth especially areas that are subject to heavy winter use

Application rate: 35-70g per sq. m
Area treated by a 25kg bag: 355-714sq. m
Suggested use period

Jan Feb Mar Apr May Jun Jul **Aug** Sep Oct Nov Dec

Longevity 6 weeks

Renovator Pro

14+0+5+FE+ Herbicide
(14+0+4.1+ Herbicide)

- Triple-action, mini-granular, compound fertiliser
- For use on Hardwearing and Fine lawns and other recreational areas
- Two selective herbicides control common broad-leaved weeds
- MAPP No. 16803 PCS No. 02512

Application rate: 35g per sq. m
Area treated by a 25kg bag: 714sq. m
Suggested use period

Jan Feb Mar **Apr** May Jun Jul Aug Sep Oct Nov Dec

Longevity 6 weeks

Grass Seed

LAWNPRIDE

Hard Wearing Lawns.

A dual purpose mixture combining the fine texture quality of fescue with the wear tolerance of turf type perennial ryegrass. This excellent combination makes the mixture general landscaping and domestic lawns.

30% Passion Perennial Ryegrass

25% Platinum Perennial Ryegrass

10% Trophy Chewings Fescue

35% Corail Strong Creeping Red Fescue

Sowing rate: 35g per sq. m.

Pack Size 25kg

Mowing height: 25mm

FINEGREEN

Fine Lawns, Shaded Areas.

An ideal mixture for those requiring a fine leaved dense sward. This ryegrass free mixture will be quick to establish, showing good all year round colour with the added benefit of shade and drought tolerance.

25% Trophy Chewings Fescue

20% Smirna Slender Creeping Red Fescue

50% Heidrun Strong Creeping Red Fescue

5% Highland Browntop Bent

Sowing rate: 35g per sq. m.

Pack Size 25kg

Mowing height: 10-25mm

SS-2

Drop Spreader

- Stainless steel frame, hopper and fasteners provide outstanding durability and corrosion resistance
- Large 139 Turf Saver 2 pneumatic wheels for easy operator use
- Extended ergonomic handle is more durable
- Lift handles in the front and back for easier loading and unloading
- Not suitable for coated controlled release products

Spread width: 0.91 metres
Hopper Capacity: 46 litres

SR 2000

Rotary Spreader

The SR-2000 is a rotary spreader featuring a stainless steel frame that can be relied upon for years of application. The SR-2000 has all the features of the Accupro 2000 plus:

- Large diameter, more durable stainless steel frame
- Positive on/off side deflector provides effective product delivery control
- Standard port shut-off control for greater application efficiency.

Spread width: 2 - 6 metres
Hopper capacity: 42 litres

SELECTIVES

PRODUCT	CONTAINS	CONTROLS	PACK	COVERAGE	KNAPSACK OR EVENSPREY	TRACTOR MOUNTED
ICL Enforcer can be used as a selective herbicide on all types of established managed amenity turf, and newly seeded grass.						
Enforcer Mapp 17274	2, 4-D Dicamba MCPA Mecoprop	Broad Leaved Weeds in Turf	5L	6,666m ²	300ml in 40 Litres Water per 400m ²	7.5L in 1000 Litres Water per 10,000m ²
Period of use						

Praxys is a brand new systemic post-emergence herbicide from Scotts. It combines three modern active ingredients and two different modes of action. Praxys rapidly enters target weeds, travelling through the whole plant to give complete weed destruction.						
Praxys Mapp 13912	Florasulam Fluroxypyr Clopyralid	Broad Leaved Weeds in Turf	5L	25,000 - 50,000m ²	10-20ml in 2 Litres Water per 100m ²	1-2 Litres in 200 Litres Water per 10,000m ²
Period of use						
Maximum 1 application per year						

For the control of invasive and tough woody weeds.						
Icade Mapp 16182	Aminopyralid Triclopyr	Tough Woody Weeds	1L	2,500m ² - 3,333m ²	20ml in 20 Litres Water per 100m ²	5 Litres in 200-700 Litres Water per 10,000m ²
Period of use						

TOTALS

PRODUCT	CONTAINS	CONTROLS	PACK	COVERAGE	KNAPSACK OR EVENSPREY	TRACTOR MOUNTED												
<p>Pistol® is a barrier acting non-selective total herbicide for the control of a wide range of annual and perennial broad-leaved weeds and grasses on soft and gravel surfaces in amenity situations. Pistol® has foliar absorbed translocated activity, combined with soil acting properties, providing pre-emergence weed control. The product is applied post emergence to control a wide range of annual and perennial broad-leaved weeds and grasses on porous surfaces on land not intended to bear vegetation.</p>

Sprayers

CP15 and CP3 Classic Knapsacks & Evenspray 250

1

1

2

1. The Classic Series

For more than three decades the CP Classic range sprayers has been the preferred choice. The Classic range is available in 15 litre (CP15) and 20 litre (CP3) versions.

2. Spray shields

To avoid spray drift. Two types are available. A compact round shield and a wide shield.

3. Pre-packed service kits

Essential to ease maintenance and reduce down time.

4. Booms

Lightweight booms ideal for spraying larger areas. 2, 3 and 4 nozzle booms equipped with ISO F-02-110 colour coded flat fan nozzles. Output per nozzle at 2 bar is 0.65 l/min.

5. Evensprey 250

Designed to offer controlled spraying for the smaller applications where large plant cannot practically be used, the Evensprey 250 provides a professional standard solution where one didn't exist before. The go anywhere, rugged but light steel frame supported by three 8" pneumatic tyres, offers all weather access to the finest of turf surfaces without concern of damage.

The battery powers the unit for up to 2½ hours between charges and the finger on/off control ensures that you only spray where you need to.
